SUMMARY

Computer Science and Engineering graduate with internship experience in software development, full-stack applications, and machine learning. Strong foundation in programming, databases, software engineering, and problem-solving, with hands-on experience building scalable applications and data-driven solutions. Seeking entry-level software engineering opportunities in application development, backend systems, and AI/ML.

WORK EXPERIENCE

DVR and Dr. HS MIC College of Technology

Full Stack Developer Intern

January 2026 – March 2026

Vijayawada, AP

- Developed an Employee Leave Management System with role-based access using the MERN stack.
- Developed and tested REST APIs for leave management, user workflows, and database operations.
- Technologies:** Node.js, Express.js, MongoDB, React.js, REST APIs.

Edunet Foundation (APSSDC)

AI/ML Intern

May 2025 – July 2025

Vijayawada, AP

- Implemented Python-based machine learning solutions using Markov Decision Process models for AI decision-making.
- Performed data processing and model implementation using Python and NumPy.
- Technologies:** Python, Machine Learning, NumPy.

PROJECTS

Wholesale GST Billing System

[GitHub](#)

- Developed a full-stack billing and inventory management system using Spring Boot and React for wholesale business operations.
- Implemented REST APIs for products, customers, invoices, stock management, GST calculations, and reports using Java, Spring Boot, JPA, React.js, H2, and Maven.

AI Weight Loss & Nutrition Recommendation System

[GitHub](#)

- Developed a full-stack AI nutrition platform providing personalized meal plans, calorie and macronutrient targets, and adherence-based recommendations.
- Implemented ML-based recommendations using hierarchical clustering and neural networks, with authentication, REST APIs, and MongoDB using Python, TensorFlow, Keras, and React.js.

JARVIS AI – Google Workspace Personal Assistant

[GitHub](#)

- Developed a full-stack AI assistant integrating Gmail, Google Calendar, and Google Sheets through secure backend APIs.
- Implemented OAuth 2.0, Gemini function calling, JWT sessions, server-sent event streaming, and PostgreSQL using Next.js, TypeScript, Node.js, and Express.js.

TECHNICAL SKILLS

Programming Languages	C++, Python, Java, JavaScript, HTML5, CSS3
Backend Technologies	Spring Boot, Spring Data JPA, Node.js, Express.js, REST APIs
Frontend Technologies	React.js, Tailwind CSS
Databases	MongoDB, MySQL, PostgreSQL
Core Concepts	DSA, OOP, DBMS, Operating Systems, Software Engineering, Design Patterns
AI/ML	Machine Learning, Generative AI, NumPy, Pandas, Scikit-learn, TensorFlow, Keras
Tools	Git, GitHub, Visual Studio Code

EDUCATION

2022–2026	B.Tech in Computer Science , SRM University AP	CGPA: 8.52
2022	Intermediate (MPC), Board of Intermediate Education, AP	950/1000
2020	10th, Board of Secondary Education, AP	583/600

CERTIFICATIONS & ACHIEVEMENTS

- SAP Certified – SAP Fiori Application Developer.
- Published papers in IEEE Conference Proceedings and SN Publications on ML/DL-based Weight Loss Optimization.
- AWS Certified Solutions Architect – Associate; Oracle Cloud Infrastructure Foundations – Oracle Academy.
